21-08 Laos Quality of Life Program, Ban Phou Houa-Sang Lower Secondary School

21-09 Thailand Student Assistance – May (Not Funded, No School This Month)

No requests from Soudeuane in Laos this quarter. We were able to assist a village in Thailand and are continuing with student assistance in Nakhon Phanom.

Due to border closures, it took a while for the materials for Motions 21-07 & 21-08 to get to the site. The materials are there and the work is underway.

We had 5 graduates in 2021.

Nanthawee Chanapotch, Nittaya Manasen, Nutjira Nilsakha, Chotika Pimsri and Chutatip Siriwongse
Congratulations to these students, we wish them a great and promising future.

 Dear TLCB members, My name is Nittaya Manasen would like to thank TLCB
 for providing a scholarship. Supporting my studies from high school to bachelor's
 degree level. This scholarship is very useful for me. It is an opportunity for you to
 continue your education at the bachelor's degree level. Thank you very much.

Hello, my name is Nutjira Nilsakha or as you know me "Pann". I'm one of
 Christian Mission's members and I got scholarships from TLCB and Advent
 Christian Conferences since I was in grade 7 until I got my Bachelor's Degree
 this year.

I'm writing this letter today just to say that I'm grateful for your kindness and I
 really appreciate your help. When I started my 7th grade I came to stay at
 Christian Mission and studied English from Dr. John Middlewood who was the
 head of CMN during that time. I got the scholarships from TLCB until finished
 my 9th grade. This scholarship helped me a lot with my tuition fees. So, thank
 you very much for this.

Thank you also to Advent Christian Conferences in the United States and New
 Zealand for scholarships from when I was in grade 10 until I finished the
 Bachelor's Degree. You not only helped me with the tuition fees but also other
 expenses such as food and electricity while I and the other members were
 staying at CMN. If I hadn't had your help, I wouldn't be where I am today.
 Thank you very much for your help.

There's one more thing that I got from staying at CMN; that is to know God
 and become a Christian. I believe that Jesus is my Savior. I will keep spreading
 His blessings to other people who don't know about him yet.

Once again, thank you very much for all of these blessings. I'm really grateful
 for them.

God bless you.

Dear Advent Christians in the United States and New Zealand, and the Thailand
 Laos Cambodia Brotherhood (TLCB)

My name is Cholika Pimri but you already know me as Ploy. (Ploy is the
 name of a kind of diamond in Thai.) I am writing this letter to thank you all who
 have contributed to my graduation.

I am one of Christian Mission Naratchakwal's members. After I finished grade 6,
 Dr. John Middlewood and Mrs. Wipada Keawvutdao took me to their house to
 live and they have been taking care of me until now, even though Dr. John
 Middlewood died 7 years ago. His kindness and all the knowledge that he taught
 me is still in my mind. I would love to say thank you very much to this couple and I
 thank God for them. They are not only my benefactors; they are my family.

I would like to say thank you to TLCB members for helping me from grade 7
 to grade 9. Your scholarship helped me and my family greatly. Thank you very
 much. I will never forget your kindness.

Also, thank you to the Advent Christian Conferences in the United States
 and New Zealand; you played a big part in helping me from the beginning until
 now. I started to get scholarship help from ACCCC and ACMissionZ when I was in
 grade 10 and until I finished the Bachelor's Degree. You were not only giving the
 scholarship to me but you also helped me with the semester fees and many of other
 things. I greatly appreciate your kindness and generosity.

If I hadn't met with Dr. John and all of you, I may never know which way
 that my life would have gone because I may not have known God. I became a
 Christian when I was 14 years old and now I'm 24 years old. God changed my life.
 He has given and gives many things to me and He gives a lot of opportunities to
 me. I will give God's love to others and I will behave to others as well as I have
 been given by all of you. Thank you God. Thank you very much to all of you. I
 really appreciate everything you have done for me.

God bless you.

March 6, 2021

REQUEST

From: Ban Phou Houa-Sang Primary School, Nonghet District, Xiangkhouang.

To: Honored President of the Thailand-Laos-Cambodia Friendship Association (via appropriate Administrative Offices)

Ref: Request of Villagers and School submitted to the Province Education and Sports Office through Nonghet District Education and Sports Office regarding the condition and problems arising for the school which is old and has been dilapidated condition for many years.

The Province Education and Sports Office in coordination with the Nonghet District Education and Sports Office together submit this request to the President of the TLCB for further help for funding to buy tin roofing sheets, cement, cement blocks for walls, gravel and sand to complete repairs of the school.

The Phou Houa Sang 5-room primary school is of semi-permanent construction funded through the 1992 Nonghet U 552 drug program and built in 1996. The reason the school is in such disrepair is due to a severe windstorm last year resulting in great damage to villagers' homes as well. The school is located to the East off of Route 7 to Vietnam leaving the paved road and on for a further 30 km. altogether about 126 km. from Phonsavan town. The school is near the Phou Houa Sang Secondary school which was built in 2006. This is a very remote area.

2 photos of the building to be repaired

The 5-room school building measures 8 x 42 m. including the corridor.

The materials needed for repair are:

1. Tin sheets for roofing
2. Cement and sand for walls
3. Cement blocks for walls
4. Nails for roof structure

At this time, the villagers are cutting timber for the roof structure to be built so that the building can be used for classes very soon. The main concern is finding the funds to buy the necessary building materials. The school has been seeking help through various activities but the funds raised have been inadequate for the need.

There are four villages served by this school including one Khamou village, two Lao Soung villages and four Lao Loun villages with a population of 1,072 people. There are two school buildings with one of semi-

permanent wood construction. The school has eight teachers of whom five are women, and 136 students of whom 63 are girls.

The villagers are subsistence farmers growing up-land rice and gardens and raising livestock.

Thus the school and the villagers are asking the Province to request assistance from the TLCB for funds to buy tin, cement, blocks, sand and nails.

We hope the TLCB can find ways to help in this effort if possible.

The villagers will provide all the labor needed.

With gratitude

Motion 21-08 Laos Quality of Life Program
Ban Phou Houa-Sang Lower Secondary School, Nonghet District, Xiangkhouang, Laos

Estimated Amount = \$1,970.00

Actual Amount = \$1,970.00

2021 Laos Budget Current \$11,770.00 - \$1,970.00 = -\$9,800.00 remaining.

PROPOSED: That the TLCB grant ~\$1,970 to buy roofing sheets and cement for floors at this school to complete repairs of the dilapidated Ban Phou Houa-Sang Lower Secondary School, Nonghet District, Xiangkhouang Province.

BACKGROUND: The Xiangkhouang Provincial and Nonghet District Education Offices have joined to submit this letter to the President of the Thailand-Laos-Cambodia Friendship Association to request funding assistance to buy roofing sheets and cement for floors at this school.

The Phou Houa-Sang Village Lower Secondary School, built by the villagers themselves. is of semi-permanent construction and has three classrooms. It has a tin roof but still has no cement flooring. Last year the school was severely damaged by a wind storm just as were the homes of a number of villagers there.

The school which was built in 2006, is located on the east side of Route 7 connecting Xiangkhouang and Vietnam. It is some 30 km from the paved road in a distant and remote area; altogether some 126 km. from Phonsavan town.

The 3-room school measures 8 x 23 m. (including the corridor).

Funding is needed for tin sheets for roofing and cement, sand and gravel for floors, and nails needed for roofing and repairs (to siding).

In the past, the school has tried to raise funds to buy the needed materials for school repair but funding was not enough to cover all the different repairs to be done.

The school serves 11 smaller villages. Two of these are Khmu, five are Lao Soung, and four are Lao Loum villages. The total population numbers 4,683 people.

The school has altogether three buildings of which two are of permanent construction and one is of semi-permanent construction.

There are 52 teachers of whom 27 are women, and the school has 266 students of whom 128 are girls.

The villagers are mainly subsistence farmers who plant upland rice, have gardens and raise livestock.

Thus, the school and villagers have written this letter to the Provincial Education Office to help to request assistance from the President of the Thailand-Laos-Cambodia Friendship Association to provide funds to buy tin roofing sheets, nails, cement, gravel and sand.

They hope that the President of the Thailand-Laos-Cambodia Friendship Association will be able to find a way to help the village if possible, no matter how long it might take.

The villagers will be responsible for all the labor needed to make the repairs.

With gratitude.
