REPOSITIONING

Help with repositioning at ease in one our CentroBed.

Amazon Turning Bed

The Amazon is a multi-functional turning bed that enables single-handed care and hands-free turning with its automatic turning system. The bed is designed to gently rotate or turn the patient's body from side to side, which can help prevent pressure ulcers, improve blood circulation, and provide relief from discomfort associated with prolonged bed rest.

The Amazon will turn someone from side to side throughout the night, the Amazon turning bed also has the added advantage of 'growing' with the individual. Irrespective of the height of the person the Amazon turning bed will fit and profile in the correct places.

It's an absolutely amazing piece of equipment

Tungsten Elite Bariatric Bed

The Tungsten Elite is a cutting-edge solution designed to cater to the specific needs of individuals requiring bariatric care. With its advanced features and robust construction, this bed offers superior support and comfort for heavier patients. The bed's sturdy frame, reinforced with high-quality materials, ensures durability and long-lasting performance. Equipped with a powerful motor system, it allows easy adjustment of height, backrest, and leg positions. The bed combines innovation and functionality to deliver exceptional care for bariatric patients.

The Tungsten Elite can resolve even the most complex of Bariatric care needs. We have taken all the elements of our incredible feat of engineering, The Tungsten, and combined to include full profiling to assist with postural management and day to day care. The bed resolves issues with the prescribing of a bed for clients with increased weight. No rocking, a strong bed with incredible stability and safety.

First night of full sleep I have had in a year!
