Paediatric (Micro) TILT-IN SPACE SHOWER CRADLE

Designed to assist

The Orchid Paediatric MICRO Tilt-in-Space Shower Cradle is a solution designed to streamline personal care and enhance the showering experience for the end user. The tilting function gives the option of an upright or tilted seating position, and the sides of the mesh along the frame are padded to maximise comfort.

Optional accessories available such as a fully adjustable and removable foot rest, thoracic supports and side supports. This cradle is available in one size only. There are two options, either a manual or electronic tilt action, both of which provide a tilting angle between 75° and 35°. Aperture available, and sits comfortably over our commode facility.

OPTIONAL ACCESSORIES

Delta Head Rest

Side Supports

Washing Aperture

Side Support Rolls
