SPRING 2015

At **Kat Burki**, we are a modern, relevant lifestyle brand specializing in unique, intelligent and highly-effective products.

Kat Burki Beauty specializes in certified Cold-Pressed, Cold-Poured, and Cold-Processed formulas. Our formulas are pharmaceutically compounded with transformative complexes that combine Skin-Identical and Cell-Communicating ingredients with powerful antioxidants and boosting Co-factors for clinically proven effectiveness.

Kat Burki Fragrances combine expert attention to detail with superior fragrance oil selections and quantities that uniquely marry legendary perfume alchemy with modern day olfactory sensibilities.

Pioneering innovation and my passion for health and wellness drive me to provide you luxury products of the highest-quality and efficacy that embody
Intelligent Formulas for Maximum Beauty.

Kat Burki

THE STORY

Kat Burki
Founder and CEO

A lifelong advocate for wellness and beauty, **Kat Burki** is a multi-award winning lifestyle influencer. Kat is recognized for offering one-of-a-kind solutions resulting in Luxury, High Performance, Clinically Proven beauty products that are **Intelligent Formulas for Maximum Beauty**.

The carefully crafted formulations are faceted by Kat's rich artistic and sensory experiences as a designer as well as her early Healthcare training in Nutrition. Her passion for health, wellness and nutrition, led Kat into a career as a Healthcare Attorney, joining scientists and epidemiologists researching the rise of environmental and food related disease, which led to a deeper understanding of how our bodies rely on and utilize nutrients.

Simultaneously, Kat started what would grow into a very busy International design practice. Inspired by her travels, Kat put together a group of International artisans to create a lifestyle offering for her clients and to the trade customers, including a fragrance, Tuberéuse, that to her, accurately represented her favorite flower: light, delicate and exotic.

With the success of Tuberéuse Eau de Parfum, Kat was challenged to produce other beauty products. Passion-driven and determined to develop nutrient-rich skin care, Kat partnered with an Herbologist to create restorative formulas of unparalleled efficacy.

Understanding the degrading effects that over-processing and heat have on nutrients, vitamins and antioxidants in food, Kat spearheaded an NSF certified method of **Cold-Pressing**, **Cold-Pouring** and **Cold-Processing** to ensure paramount benefits from one's skin care. During this time, Kat began experimenting with vital ingredients, such as antioxidants and superior oils, greatly recognized for their profound ability to nourish and protect the skin as well as helping repair free radical damage.

Globally revered as a thought leader, Kat continues to expand on her knowledge of formulations that incorporate beneficial ingredients known for achieving long-lasting results. The **Kat Burki** brand is taking innovative steps by embracing the development of **Cell-Communicating Ingredients** to help repair damaged skin cells and multi-platform **Co-factors** to aid in efficient enzyme function- all working together to fulfill the brand's larger mission of **Intelligent Formulations for Maximum Beauty**.

“Our products change the landscape of conventional skin care.”

POINTS OF DIFFERENCE

Kat Burki specializes in **Cold-Pressed Oils** and the intelligent use of **Co-factors**, **Skin-Identical** and **Cell-Communicating** ingredients that are **Cold-Poured** and **Cold-Processed** for maximum efficacy. Our concept of formulating skin care is unique and results in a much higher level of efficacy that is truly transformative.

1

COLD-PRESSED BEAUTY

Kat Burki formulas come to life empowered by **Cold-Pressed** and **Cold-Poured** oils that are **Cold-Processed** under 120°F and lower temperatures.

COLD
pressed

COLD
poured

COLD
processed

Cold-Pressing is a method of extraction similar to steam-distillation for essential oils. It keeps a constant temperature so the oils are not degraded and also allows skin care ingredients to maintain high antioxidant levels. Although some skin care formula bases require heating to properly set the ingredient deck, all **Kat Burki** oils and herbal infusions are Cold-Poured once Cold-Pressed into their base formula. Additionally, to ensure the highest level of efficacy, all formulas are there-after Cold-Processed.

* **Kat Burki** has exclusively partnered with the NSF to establish the first certification process for Cold-Pressed Oils and Cold-Poured Processes for cosmetic products in the U.S.A.

2

INTELLIGENT FORMULAS

Kat Burki uses a **Co-factoring** method to ensure our formulas offer maximum results. This means that our signature active ingredients have the power to boost the potency of other ingredients in our product formulations. We do not use fillers, binders, or ordinary water in our products. For our **Kat Burki** Intelligent Formulas, we use:

- SKIN-IDENTICAL + CELL-COMMUNICATING INGREDIENTS
- POWERFUL ANTIOXIDANTS BOOSTED BY CO-FACTORS
- EFFICACIOUS BOTANICS +
POWERFUL OCEANIC MINERAL COMPOUNDS

3

CLINICALLY PROVEN RESULTS

We at **Kat Burki** conduct Independent MD certified Biophysical Clinical Studies including Cutometer® testing to prove the efficiency and efficacy of our products. Our priority is to create products that are not only sensorial but also deliver the highest level of efficacy for **Intelligent Formulas for Maximum Beauty**.

BEAUTY TOOLS

A MUST-HAVE

Micro Firming Wand

\$85.00

A lightweight, cordless, easy-to-use transdermal delivery system that helps active anti-aging nutrients penetrate 30% deeper into the skin. Processes of iontophoresis and micro-vibration increase absorption of your favorite Kat Burki skin care products as well as stimulate micro-circulation for skin that visibly looks smoother and firmer.

- BENEFITS:**
- Helps Active Ingredients Penetrate 30% Deeper into Skin
 - Increases Absorption of Skincare Products
 - Helps Increase Micro-Circulation
 - Highly Effective in Helping to Minimize Fine Lines & Wrinkles
 - Ion-Induction & Micro-Vibration Give a Lifting Effect
 - Helps Prevents Waste of Cosmetic Products

RECOMMENDED FOR: ✓ Normal, Combination, Oily, Dry, and Sensitive Skin

* Requires 1 AA battery

HOW TO USE

- **ACTIVATE:**
Apply 1 pump of a Kat Burki treatment product onto the applicator tip of the Micro-Firming Wand to activate.
- **APPLY TO SKIN:**
The Micro-Firming Wand operates automatically when the massage head comes in contact with skin's surface and a treatment product.
The wand must be used on moist skin.
- **MASSAGE:**
Use overlapping circular motions and massage gently onto skin targeting specific areas- eyes, nose, mouth until treatment product is absorbed. May be used alone or all over face as a treatment.
The Micro-Firming Wand uses your own ionic energy to activate and cannot be used on others.
- **FINISH:**
The device shuts off automatically when not in contact with skin.
DO NOT wash or immerse in water.
Wipe clean with damp/dry cloth or sanitize with alcohol wipes.
