2025 SUMMER PROGRAM GUIDE

REACT Hockey Training is excited to announce our 2025 Summer Development Program!

Our 2025 players will have exclusive access to train using the Power Edge Pro (PEP) Skill Development System—the gold standard in small-area reactive hockey training.

PEP is widely recognized as the industry leader in elite on-ice development, with a proven track record of producing high-level results. Trusted by over 100 NHL players, the U.S. National Development Program, the CHL, and numerous NCAA Division I programs, PEP offers a dynamic, high-impact training system that drives measurable improvement across all skill levels. REACT will offer a variety of PEP skill-focused skates, including:

- **“Summer Sundays” PEP Skills**
- **“3-Day” PEP Skills Camps**
- **PEP Elite Skates (AAA, Junior, College Players) BY INVITATION ONLY**
- **Private Small Group Skates (8-12) Available Upon Request**

We strongly encourage any players who are serious about advancing their game to take full advantage of this exceptional opportunity. This program is designed for driven, hard-working athletes looking to elevate their development and compete at the next level.

PROGRAM TESTIMONIALS

"The summer program was exactly what my son needed in his summer development. The power edge pro system challenges players at any level. The program will hone reaction time, skating ability and stick handling of any player."

- NIHL Parent

"My son is an elite skater. His Achilles heel has been his stick handling. After multiple PEP classes, his hands and confidence have already improved. He is able to attack the defense with more confidence and success! Nothing else compares!"

- AAA Parent

"My son LOVED the PEP program beginning to end this summer! From clear directives and goals each session, to confidence building by the coaches because the groups are intentionally small so each coach builds a relationship with the skater."

- CSDHL Parent

"The coaching staff are top notch. They care about the development of the players and share the love of the game. They truly believe in the continuous development of each and every one regardless of skill level"

- AAA Parent

"The best program to push and make your player a better player. Coaching staff on point and very knowledgeable to the program. I will have my player in all pep activities. Thanks to all the coaches and staff of REACT we love the program"

- CSDHL Parent

"Watching the progression throughout the spring/summer was amazing. After 4-6 sessions there was a noticeable difference in my sons abilities and then to see it put into game play in his league was awesome, thank you REACT!"

- PREP Varsity Parent

"My child loves hockey and his goal is to be the best hockey player he can be. He received direct clear instruction on how to improve his skills from professional and supportive instructors. I would recommend this program to any athlete."

- Anonymous

My son improved his stick handling and speed in the summer program 100%. He also did the D-camp which was exceptional! Most of all his confidence is through the roof..."

- NIHL Parent
