Coolair... Australia's greatest value for money home cooling!

- ✓ **Warranty** durable quality
- ✓ **Efficient** save up to 85% on energy costs*
- ✓ **Australian made** and owned
- ✓ **Natural** fresh, cool, clean air
- ✓ **Alfresco living** with options for security vents so you can leave doors and windows closed
- ✓ **NATA** accredited test results substantiate superior product performance

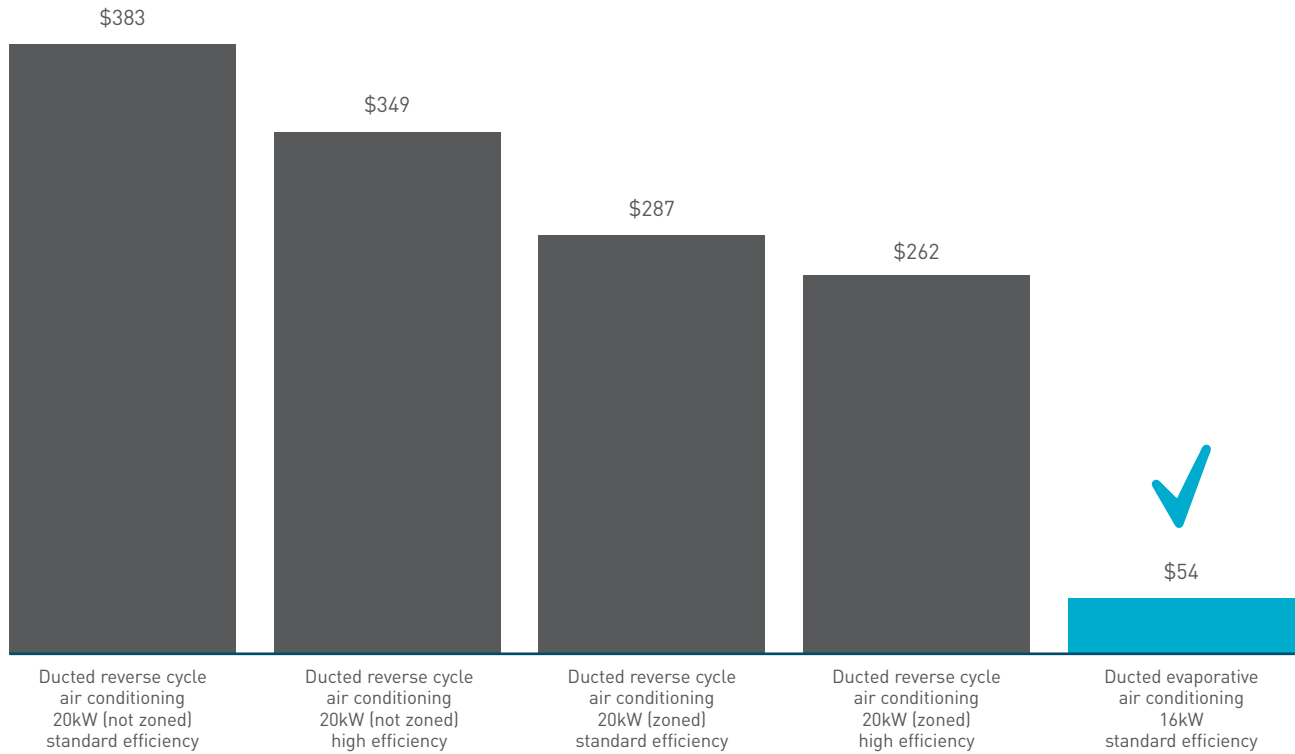

*Refer to page 4.

Save with Coolair

Save up to \$329 per year in running costs compared to a ducted reverse cycle system*

Running costs for whole of home air conditioning

*Based on approximate running cost figures per annum sourced from Sustainability Victoria – see its Cooling Fact Sheet at www.sustainability.vic.gov.au/services-and-advice/households/energy-efficiency/toolbox/energy-efficiency-fact-sheets. Assumes a whole house area of 166 square metres, with 300 hours usage, a 60% duty cycle for air conditioners, and an electricity tariff of 28 cents/kWh. No brand names are mentioned in the Sheet. Note that evaporative coolers also use water. Information correct at time of printing, 16/08/2017.

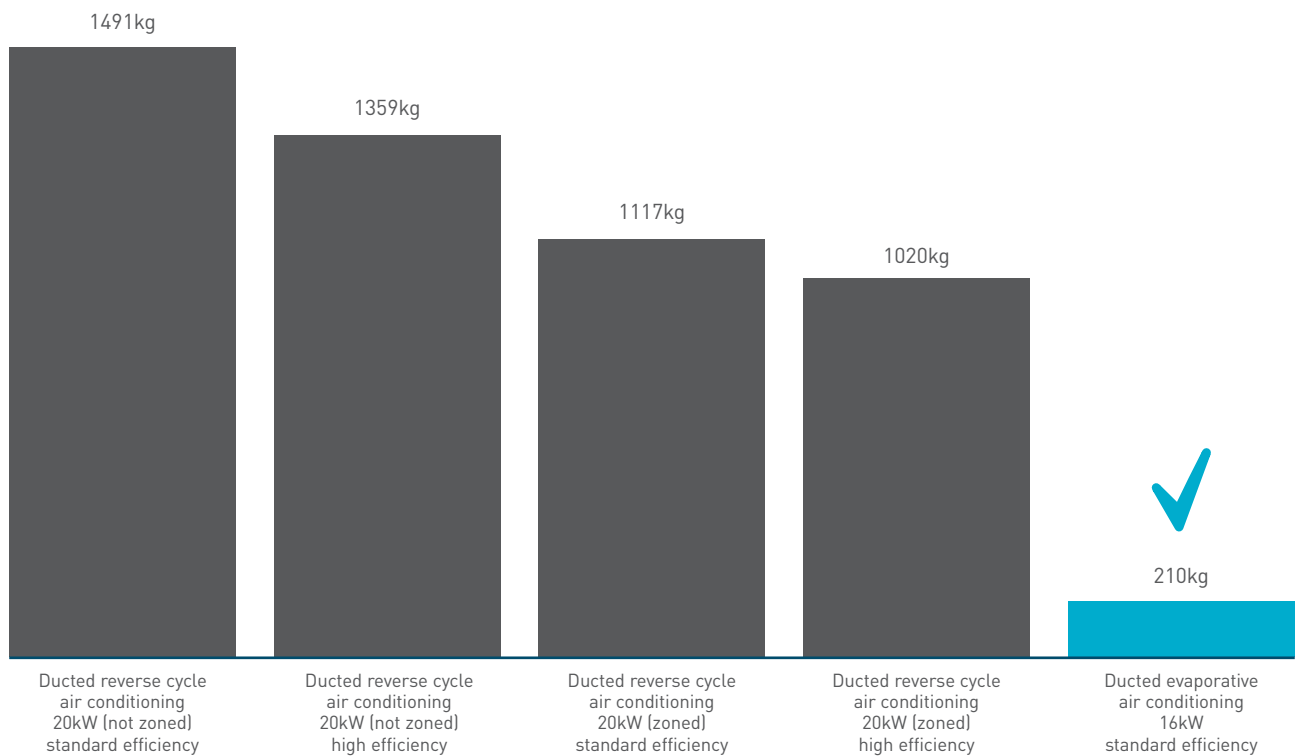

Better for the environment

Save up to 85% of CO₂ emissions compared to a ducted reverse cycle system[^]

CO₂ emissions for whole of home air conditioning (kg/yr)

[^] Seeley International's calculations, based on publicly available data (2008). CO₂ emissions based on 1.09 kg CO₂ e/kWhr electricity purchased from grid for Victoria. Data sourced from Part 6 of Schedule 1 to the National Greenhouse and Energy Reporting (Measurement) Determination 2008 (Compilation No. 7, dated 1 July 2016).

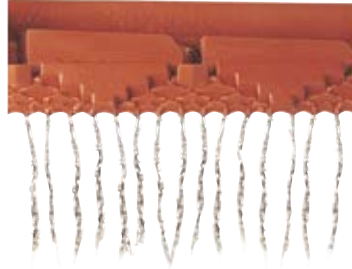

Coolair ducted evaporative cooling

Features and benefits

Exceptional water distribution increases cooling effect

Coolair's unique patented water distribution system means no clogging and no dry spots on the filter pads.

- Clever high efficiency pad wetting system
- Total pad saturation for total cooling
- High performance cooling day and night

Tornado[®] pump that won't block

- Australian designed and manufactured
- Built to outlast other less efficient conventional style pumps
- Dual directional – it can't block!

Stealth[®] fan is whisper quiet

- Advanced aerodynamic design
- Super quiet in operation
- Produces a constant, cool, quiet and refreshing breeze at a fraction of alternative running costs

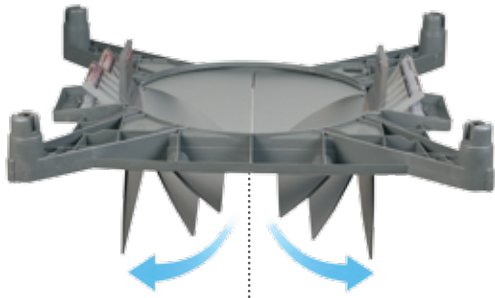

Breakthrough Mini-cell[^] Chillcel[®] pad technology!

Dramatic improvement in cooling efficiency

- Revolutionary new Mini-cell structure provides a new development in cooling technology
- New enhanced small cell design, means that the Coolair range boasts a new cutting edge level of cooling capacity – up to 20% more than before, for the highest efficiency product
- New pad formulation has resulted in having 25% more surface area dramatically improving cooling efficiency
- The only evaporative cooling pads fully manufactured in Australia to suit the harsh Australian climate, and **now**, the absolute **over-performer!**

[^]Patent pending

AutoWinterseal™ reduces draughts and dust

- Automatically closes off the air conditioning ducts when not in use
- Reduces winter chills entering your home
- Ensures comfort all year round

Highly durable and non-corrosive outer casing

- Visually discreet, low profile
- Integrates unobtrusively with the roof line
- High performance Permatuf® polymer construction
- Highly durable, will not corrode or rust
- Available in a range of contemporary colours

Auto water draining keeps your system clean (optional)

- Reduce the need for seasonal maintenance with this optional feature⁺
- This clever device conserves water by retaining the system's water for up to 72 hours of non-operation
- If the system is not used for 72 hours, the Clean and Dry feature will release its load as garden friendly grey water, preventing ongoing algae growth

Flexible control with MagIQcool®

- The Coolair MagIQcool controller is incredibly easy to use
- Set your preferred temperature level on the clever wall mounted control and Coolair will do the rest - quickly, cleanly and reliably
- Maintain your desired comfort level with four convenient modes to choose from - cool, vent, auto and timer

Optional extra: MagIQtouch controller

Upgrade to the MagIQtouch controller with advanced features of touch screen technology.

Scan this QR code to see the MagIQtouch controller in action on your smartphone

Simply download QR Code Reader/Scanner from the App Store or Google Play.

Scan the code and experience the MagIQtouch.

⁺ Regular maintenance (typically every two years for domestic use) is still required.

CPQ 700	1150	1150	685	79	430	9.5	2000	Yes	With upgrade
CPQ 850	1150	1150	835	87	600	11.8	2560	Yes	With upgrade
CPQ 1100	1150	1150	835	89	750	13.3	2710	Yes	With upgrade

The above data was drawn from Meridian Test Laboratory's test analysis. The testing was performed by a NATA accredited laboratory to the requirements of the Australian standard AS2913-2000 "Evaporative Air Conditioning Equipment." Achievable with ambient 38 °C DB, 21°C WB, room temperature 27.4 °C.

Looking for a combined cooling and heating solution?

Seeley International's range of products also includes ducted gas heating that complements your evaporative air conditioning system. Take advantage of controlling your cooling and heating systems from the same controller – the innovative touch screen **MagIQtouch controller**. Ask your dealer for the right solution for your home.

Keep your home secure

Did you know you can cool your home without leaving your doors and windows open?

Ask your dealer about installing a cost effective and easy to install **Security Relief Vent** in your home, allowing you to run your evaporative air conditioner while you are out, with all your windows and doors safely closed and locked.

Your home will stay cooler as cooled air is released into the roof space. When you return home, simply open up your windows and doors as normal, maintaining the fresh cool air throughout your home and open living areas.

Comprehensive Warranty

For complete peace of mind, Coolair backs every one of its air conditioning systems with an industry leading comprehensive warranty program.

This includes a comprehensive 5 year warranty 10 year cover on all structural components, plus a hefty 25 year cover against corrosion, on its Permatuf® cabinets.

Please refer to your home owner's manual at coolair.com.au for all service and warranty terms and conditions.

Register your warranty and go into the draw to win \$500 worth of prizes[^]

Prize includes 2 free services (up to the value of \$400) and a \$100 eftpos gift card

All you need is your home owners' manual then:

- Go to seeleyinternational.com and click on Get Support at the top of the page
- Choose the Coolair brand
- Or
- Scan the QR code on the back page of the home owner's manual with a smart phone or tablet

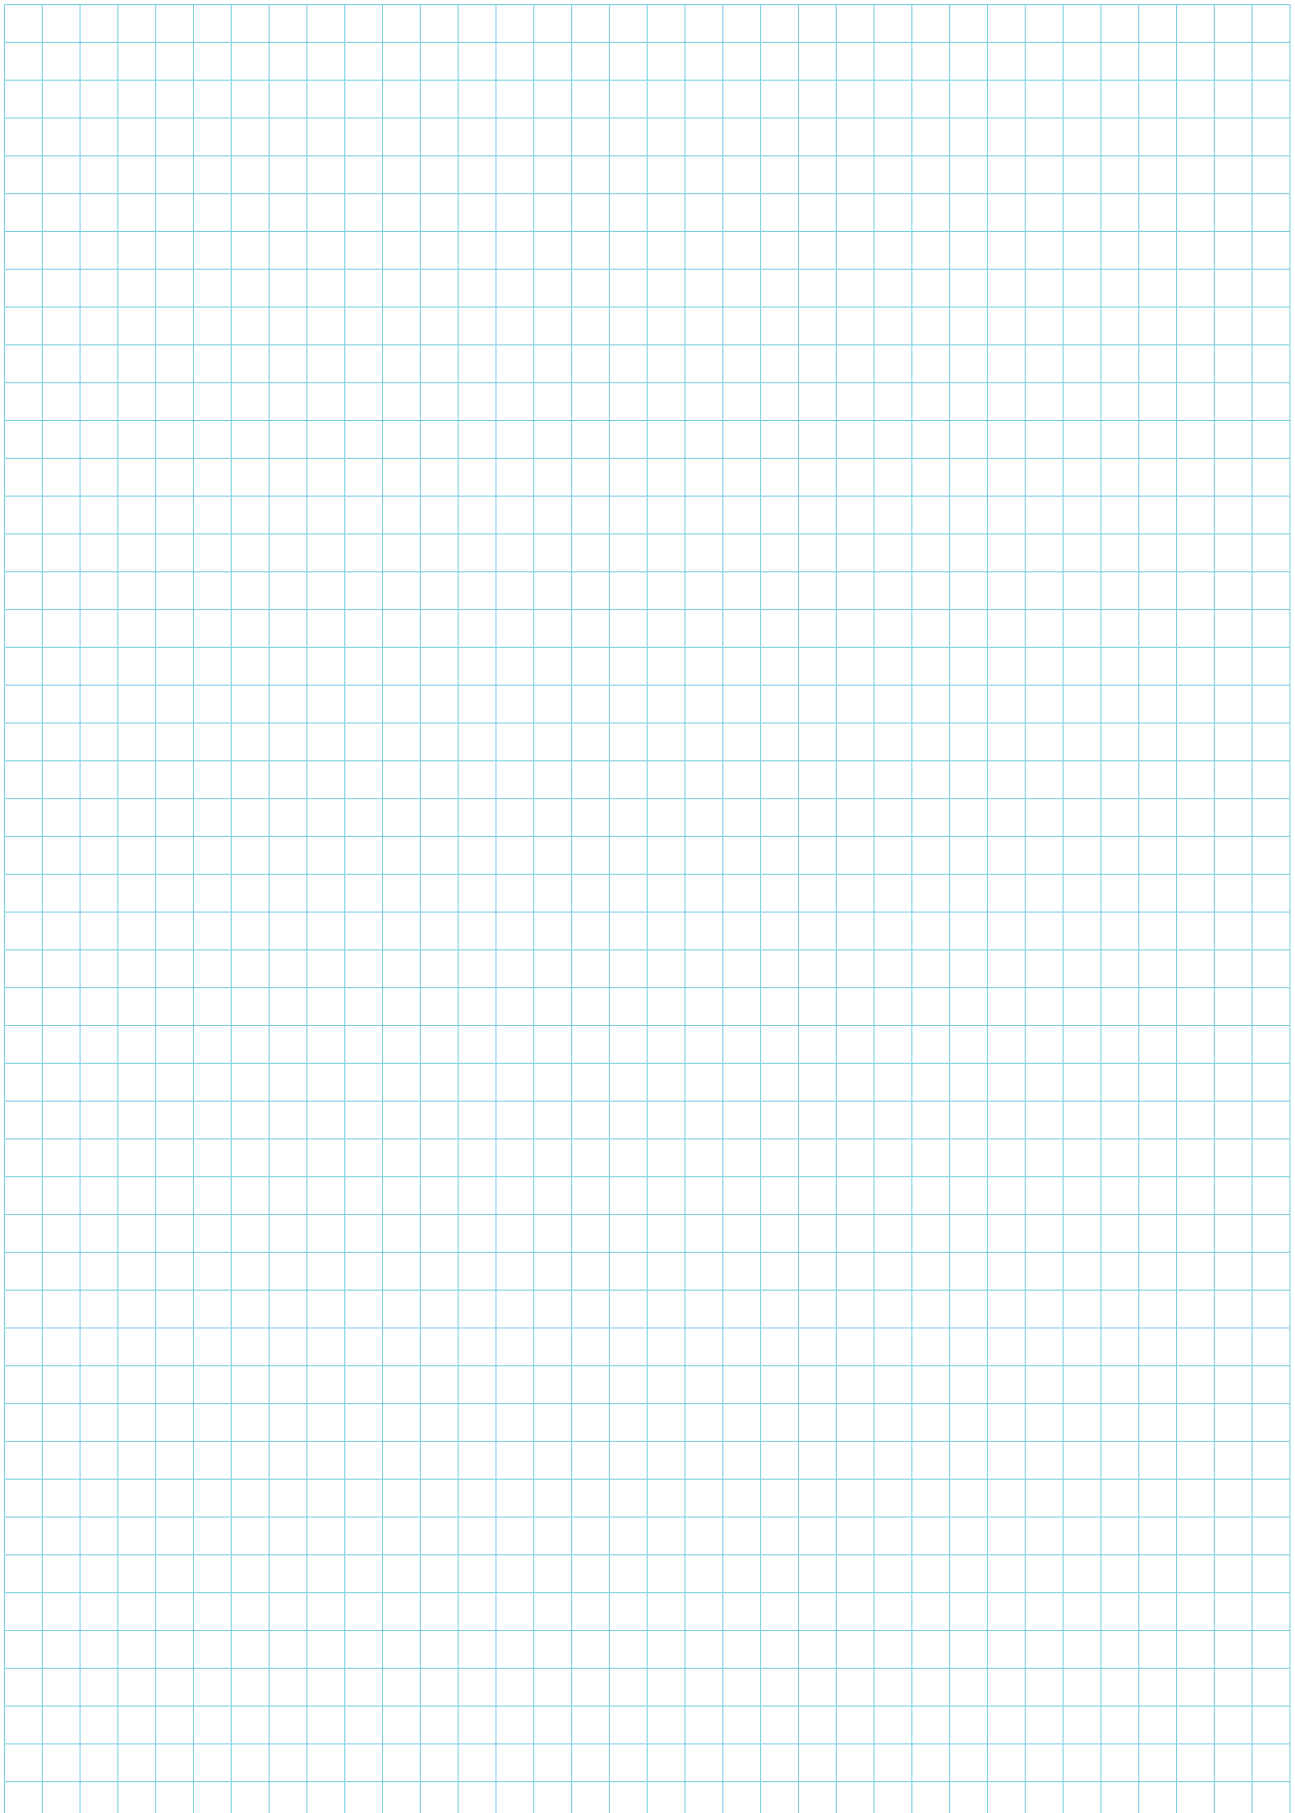

[^]Terms and conditions apply. See coolair.com.au for more information, including the dates of the promotion

Coolair national service network

Seeley International has established a network of highly professional dealers and service agents throughout Australia who are only a phone call away. Should you need to contact a service agent, please call 1300 650 644.
