

# Countryman

## Convection Wood Heater

**NEW  
Model**

### **CLEARANCES** (combustible walls\*)

#### **Parallel Position:**

325mm from back wall  
525mm from side wall

#### **Corner Position:**

200mm from corners

The Countryman fan-forced is now available from Jarrahdale Heating. Boasting our largest firebox yet, this impressive freestanding wood heater offers maximum heat output, warming up to 280sq/m. The Countryman also features a large door opening for easy loading of larger logs while offering cosy views of the fire from its oversized glass viewing pane.

The Countryman is the perfect wood heater for a large residence, open-plan living areas and homes featuring high ceilings or a mezzanine floor.
