

# Hardworking beauties from the fiery heart of France

**INVICTA**

For nearly a century, Invicta's foundry in Champagne-Ardenne has produced fireplaces as flawless as the region's other famous eponymous export.

---

Offering up fuel efficient, beautifully designed pieces that perfectly showcase the 'alchemy of talent and know-how' of the nearly 300 staff Invicta employs. The foundry produces 170,000 cast iron fireplaces every year, continuing a craftsmanship culture that has resounded in the region for generations.

## WHAT MAKES INVICTA UNIQUE?

- Made in France
- Cast iron fabrication for efficient radiant heat
- 5 year warranty
- Post Combustion Technology for low-emission, fuel efficient heating

## Heat up your space (literally and figuratively) with a diverse and elegant range of designs

### OVE

Free-standing and spectacular, Ove provides warmth in the coolest way possible. Its compact size and curved shape allow it to blend seamlessly with your design aesthetic, drawing influences from movement, mid-Century modernism and, of course, fire itself.

- + Striking design makes a bold statement
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 10 kW
- + Size (mm) – W550 x D550 x H1310
- + Efficiency – 76%
- + Heating surface – up to 160m<sup>2</sup>

### TENNESSEE

Tennessee's warmth is part literal and part metaphorical, its retro shape giving a nostalgic nod to the Wild West. Small in size and large on impact, this beautiful piece of furniture heats efficiently and adds ambience and impact with four diverse colour choices.

- + Stylish design harks back to the American frontier
- + Available in raw charcoal, white enamel, burgundy enamel, black enamel
- + Heat output – 8 kW
- + Size (mm) – W780 x D428 x H798
- + Efficiency – 76%
- + Heating surface – up to 128m<sup>2</sup>

### ALCOR

Much of Invicta's inspiration comes from fire itself. This couldn't be more evident than in the minimalist triumph that is Alcor, with its panoramic glass window ensuring the flames take centre stage. Tiny but mighty, this little powerhouse heats as well as the big boys, too.

- + Compact, minimalist model perfect for smaller spaces
- + Heat output – 6 kW
- + Material – Cast
- + Size (mm) – W450 x D450 x H1200
- + Efficiency – 77%
- + Heating surface – up to 96m<sup>2</sup>

## TIPI

Drawing on influences from the Native American shelter that shares its name, Tipi's cast iron beauty creates an irresistible point of focus. Let this unique design dictate the theme of your space or create an eclectic mix but be warned – this piece is not to be ignored.

- + Native American inspired design adds interest
- + Functions with doors open or closed
- + Heat output – 10 kW
- + Size (mm) – W754 x D754 x H1585
- + Efficiency – 78%
- + Heating surface – up to 160m<sup>2</sup>

## PHAROS

Rotating 360°, Pharos warms every corner of the room while adding a resonant sense of understated chic to any space. Beautifully merging form and function, this efficient and attractive fireplace is testament to the genius of Invicta's innovative design team.

- + Chic design makes an understated impact
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 12 kW
- + Size (mm) – W531 x D530 x H1250
- + Efficiency – 76%
- + Heating surface – up to 192m<sup>2</sup>

## ARGOS

Impactful and masculine Argos makes an arresting addition to living or working areas. This powerful and efficient piece of design is made for modern living, incorporating a clever wood storage compartment at its base and featuring a signature centre window that encases and celebrates the fire inside.

- + Sleek design allows for use with multiple spaces and designs
- + Burns up to 10 hours on a single load of fuel
- + Heat output – 12 kW
- + Size (mm) – W531 x D530 x H1250
- + Efficiency – 76%
- + Heating surface – up to 192m<sup>2</sup>

## NELSON

Useable from the front or the back thanks to its two glass-fronted doors, Nelson is designed to stand front and centre. A design unlike any other on the market, this statement piece is not for the faint hearted and offers flexibility in the most fascinating way possible.

- + Unique design allows view of flames from front and back
- + Doors on both sides fully functional
- + Heat Output – 12 kW
- + Size (mm) W910 x D480 x H930
- + Efficiency – 55%
- + Heating surface – up to 192m<sup>2</sup>
