THE DAWG CAFE

BOOSTER MENU

CBD

- Help regulate sleep, appetite, pain, the immune system and more.

QUIET MOMENTS

- A unique blend of Thiamine and L-Tryptophan helps reduce stress and tension. Ginger supports a sensitive stomach while Melatonin promotes rest and relaxation.

PUMPKIN POWDER

- Contains prebiotics that stimulate the growth of beneficial bacteria in your dog's intestines, and inhibit the growth of unhealthy bacteria. These benefits can help with digestive upset.

7 SHROOM BLEND

- This robust immune-boosting formula can help fight inflammation, increase circulation, and support a healthy brain and gut.

TURKEY TAIL

- Support overall vitality, reduce phlegm, clear dampness, increase energy and boost the immune system. Turkey Tail can enhance the immune response to certain cancers and inhibit the spread of cancer cells (metastasis).

ATLANTIC KELP

- A vitamin and mineral booster, Atlantic Kelp may help prevent common diseases while boosting nutrition to support their long-term health.

CAMELINA OIL

- Promotes a healthy skin and coat, and plays a vital role in their immune, hormonal and inflammatory response.

HAPPY DAYS DAILY ENHANCER

- Daily vitamin and mineral booster, aids in allergy health, and more.

WELLY TAILS

- Supports muscle, joint and cartilage health.

QUAIL EGGS

- High in fatty acids, selenium, iron, vitamin B12 and vitamin A. Quail eggs help give your pet a visibly silkier coat.
