

Procedures: Winter 2022

	Drop Off	Gymnast drop off is strongly encouraged for all gymnasts over the age of 5. We are asking that only 1 parent per gymnast enter our facility, so that distancing can continue to be maintained. Our waiting area is small, and we would like to reserve that space for our preschool gymnasts and the parents of brand new students.
	Bins	Each gymnast must bring their own bin to each class. The bin should be about 6 quarts and have a snap on lid, and must contain the gymnast's water bottle, a small individual hand sanitizer, a small plastic bag for their mask, and anything else that they need during class. The gymnasts are encouraged to decorate their bin to differentiate it from others! 😊
	Hand Sanitizing	Everyone entering the gym should use hand sanitizer or wash their hands upon entrance. Hand sanitizing stations will also be placed at various stations throughout the gym.
	Masks	Masks will continue to be required for everyone when inside our facility, vaccinated or not. Most of our gymnasts are not able to be vaccinated due to age restrictions, so we will continue to wear masks as an extra precaution. Gymnasts may take their masks off when they are distanced and on the equipment.
	Drinking Fountains	Drinking fountains will not be accessible at this time, and have been replaced with a sink. Gymnasts must bring their own water bottles.
	Chalk	Chalk bins and spray bottles will not be available. Chalk will be available for purchase for individual use, and must be kept in each gymnast's own individual gallon size Ziploc with their name on it. Gymnasts will not be able to share their personal chalk with anyone else while at the gym. Gymnasts that wear grips may choose to bring their own spray bottle for their personal use only.
	No Lost & Found	There will be no Lost & Found. All items left at the gym will be thrown away each night (including chalk, water bottles, clothing, etc.).
	Cleaning Procedures	We will continue to be diligent with cleaning procedures in common areas as well as gymnastics equipment to ensure a clean and safe environment.
	Canceled Classes	Coaches are not allowed to attend classes if they are showing signs of illness. When a coach must call out, we do everything we can to find a substitute, but there might come a time where we are forced to cancel a class for the week, as a last resort. We will inform you as much in advance as possible if we must do this and will discuss alternatives with you when the time comes. We always hate to cancel class, and we thank you in advance for your understanding should you be affected. Sometimes a little creativity is needed to ensure the kids get to have class that week; if you see multiple coaches jumping in to coach a single class, odds are that is a result of some substitute wizardry we had to use to keep the class as scheduled for the day!
