Why Do We Need Family Worship?

Our family life is overflowing to the brim with activities and obligations! On Sundays, we go to church and Sunday School, we do VBS during the summer, and Youth activities on Wednesday nights. The question is asked, "Do we really need to have family worship? Is it truly necessary?" Join Shelley as she challenges Believers to reprioritize with a simple life giving activity that will impact your family eternally.

Shelley Noonan's passion is to assist parents in making the biggest impact with the limited time they have with their children. Shelley and her husband Bob raised their three children on a farm in Northeastern Nebraska. For the last 19 years, Shelley has spoken across the United States at churches and conferences, sharing her heart for developing a deeper relationship with God and other believers through God's Word.
