ABOUT THE EXPEDITION

MT. YUNAM

OVERVIEW

Yunam Peak at 6111 M is a stunning trekkable peak located in the Lahaul district of Himachal Pradesh near the famous Baralacha La Pass. Though it is less frequently climbed, Yunam Peak is a great alternative to the likes of Stok Kangri and Kang Yatse 2 in Ladakh. The summit offers fantastic views of the C.B. Range and the Mulkilli Range with views stretching as far as Zaskar. However, this trek to Yunam Peak is difficult and is meant for experienced trekkers only due to the high altitude gain and bone-chilling winds as you make your way up to the summit across moraines and scree. The Yunam Peak Expedition is a great choice for aspiring mountaineers who wish to summit a peak that is not as crowded like Stok Kangri. The July to September are the best months to undertake the Yunam Peak Expedition. Stay on this page for more details on the Yunam Peak Expedition.
