

Assessment Components

Oral Language

Phonological
Awareness

Print Concepts

Decoding & Spelling

Reading Fluency

Writing

Why This Matters

Effort alone doesn't fix a reading struggle — a child can work incredibly hard for years and still fall further behind. This assessment gives us a clear, accurate picture of where your child is right now, so instruction moves forward built on your child's actual needs, backed by real data.

The Process, Step by Step

1

Schedule your assessment

We'll set up to 3 testing sessions at times that work for you.

2

Testing sessions

Each session follows a structured, step-by-step process, adjusting the pace as needed to keep your child engaged and accurately assessed.

3

Scoring & report writing

I carefully review results to see the full picture.

4

Results call

We'll walk through the assessment results together over the phone.

5

Next steps

From there, we'll map out frequency, scheduling, and how instruction will be structured.

Have questions before scheduling? Reach out anytime — I'm happy to help.
