Programs!

POW! The superhero's of Tania's Place strike again! Everyone enjoyed cutting out and designing their superhero masks for art class. Even choosing their powers!

During Friday lunch, Damian loved lending a helping hand with cooking. He started with browning the onions.

Abigail was all smiles while clapping to the music with Jayden!

Programs

For our end of February art class, everyone got to experience designing canvas's with oil pastels for their background. They enjoyed using different colours and watching their imagination come to life on their papers! For the second step their canvas's were painted black. The last step includes scratching a design over the black paint with the background colour popping through!

Here is an example of the staffs finished art canvas!

In the first group for art we have Shakur, Tyler, Akim, Tiffany, and Alicia designing their canvas with one of our PSW student!

On to the second group! In this picture we have Joel, Hafsa, Abi, and Michael.C, designing their canvas's with the PSW students!

Lastly, we have Tania, Ahmed, Charlene, and Mishal having fun while working with our DSW student!

Outings!

Our Monthly outing takes place at Melly's Cafe! It's a registered Canadian charity and not-for-profit cafe that specializes in giving job opportunities and experience to adults with disabilities. Their mission is to amplify the inclusion of individuals with intellectual and developmental disabilities in the workforce and their community. Our trip to the cafe was very inspiring to see!

Outside of Melly's Cafe in Whitby.

Steven, Tiffany, Tyler, Tania, and Shimeka enjoyed their time at the cafe. They got to try some coffee if they wanted and a delicious cookie! Trying new things with Friends is what we love to see!

Yummy treats!

Reptilia

Akim and Mike enjoyed watching the turtle crawl towards them. Mishal and Steven had a blast touching multiple snakes. Claudia loved taking pictures with the lizard!

Staff from Reptilia came to visit the clients with snakes, lizards and a turtle.

The clients enjoyed hearing cool facts about the animals, like their names, what they eat, and what kind of habitat they live in. At the end of each speech they got to participate in touching them!

Joshua was very brave stepping out of his comfort zone to pet a lizard. Tania learned to pet a snake downwards due to their scale
