Maintenance Required	★★	★★★★	★★★★★

HOW CAN A COATING BENEFIT ME?

One of the worst realizations is having invested your hard earned money into a vehicle that is prone to damage from the day of purchase. Manufacturers cut costs by installing an extremely thin layer of paint and clear coat that begins to deteriorate within the first few months. There was no solution that provided both restoration and protections properties to used and newly purchased vehicles UNTIL NOW. Introducing **ICON ROCKLEAR** - an extremely durable layer that is over 100x stronger than your unprotected vehicle surface. Installed by hand selected certified professionals ONLY it provides the ultimate superior protection against damage such as scratches, parking lot dings, car keying, fading, rich chips, rain, and all other types of imperfections that you may encounter in day to day use. Not only does **ICON ROCKLEAR** protect your vehicle paint as shown below, it adds a brilliance of deep gloss enhancement to your exterior with a 30% increase in color depth. **ICON ROCKLEAR** provides superior enhancements for both new and used vehicles to significantly restore the vehicles and make them protected from the past, the present and the future of your vehicle.
