01 About AKIF

The Dr. APJ. Abdul Kalam International Foundation (AKIF) was founded by his elder brother Janab. Haji. APJ. Mohammed Muthu Meeran Lebbai Maraikayar along with the other members of the family with support from the colleagues of Dr. APJ. Abdul Kalam. During his last part of his life, he was contemplating with his peers and family members to set up an organization where his vision would become a reality. Death snatched away this opportunity from him. Dr. APJ. Abdul Kalam International Foundation which is under the dedicated guidance of his family members at Rameswaram, have been the torchbearers of accomplishing the late President's Vision 2020.

02 Developed India Vision 2020 & Beyond

Any developing country would dream to work towards the goal of attaining the “Developed Country” title. Dr. APJ. Abdul Kalam dreamt of a mission that visualized our country to be in the Janab. Haji. APJ. Mohammed Muthu Meeran Lebbai Maraikayar along with the other members of the family with support from the colleagues of Dr. Abdul Kalam. During his last part of his life, he was contemplating with his peers and family members to set up an organization where his vision would become a reality. Death snatched away league of developed nations.

He formulated a road map to attain that vision. He wanted the development in the rural sector; effectively close the gap with the urban. Every citizen should have access to the basic resources required for their sustenance. Exploring renewable energy, upliftment through education, health care for all and corruption free governance are few of the missions that have to be worked upon.

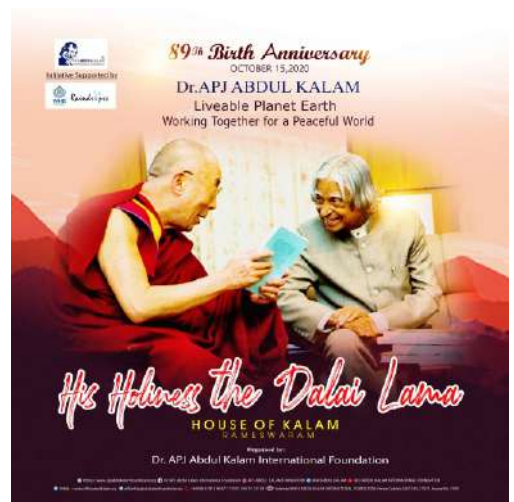

We, as a this opportunity from him. Dr. Abdul Kalam international foundation which is under the dedicated guidance of his family members at Rameswaram, have been the torchbearers of accomplishing the late President's Vision 2020. Nation, have almost reached the deadline and the path towards the goal might look like a difficult terrain to walk through. But, if every citizen is instilled with the zeal to achieve these goals with honesty, no force can stop us from achieving the ultimate.

03 What We Do?

Dr. APJ. Abdul Kalam International Foundation (AKIF), by House of Kalam Rameswaram is organizing an "INDIA" on the theme Beyond 2020 Challenges & Opportunities. The goal of the conference is to identify hidden opportunities which can be implemented by the Business players to bring about a change in an existing system for the betterment of the society and significantly paves way for achievement of Beyond Vision 2020.

DR. APJ. ABDUL KALAM CONCEPT SCHOOL

As we solemnly enter into the next phase of keeping up with Dr. APJ Abdul Kalam's dream and the good work that has remained the core of taking forward his legacy, **Dr. APJ Abdul Kalam International Foundation (AKIF), is conceptualizing an educational institution in line with his vision of a model school.** For someone who said he was comfortable amidst students and loves to ignite their imagination and laid a road map to mould the future citizens of this country, it was instinctive for him to start a school. The initiation happened, but God almighty had other plans; to rest this soul peacefully for eternity. We have planned to continue with this work which was abruptly terminated.

AKIF is treading the path he has laid for a revamped and innovative educational system. It is not the kind of system of rat race we usually observe, where children are turned into money vending machines in future, but with a holistic approach, where education is a gratifying experience leading to an overall refinement of the young generation. The goal is clear. Education is the ultimate tool to strengthen the country and steer towards prosperity.

He had always stressed on a skill based education system, where he wanted the youth to be job creators rather than job seekers. He had taught children to deal with failures and believed that greatest lessons come from people who have failed rather than people with success stories. These are just a few pointers among many, which we would like to follow and inculcate in our children.

LAND DETAILS

Required Land

10 ACRES

Per Acre Rate

₹ **12-15 LAKHS**

Total Amount

₹ **1.2 CRORES**

(Maximum ₹ 1.5 Crores)

BUILDING CONSTRUCTION DETAILS

Construction Area

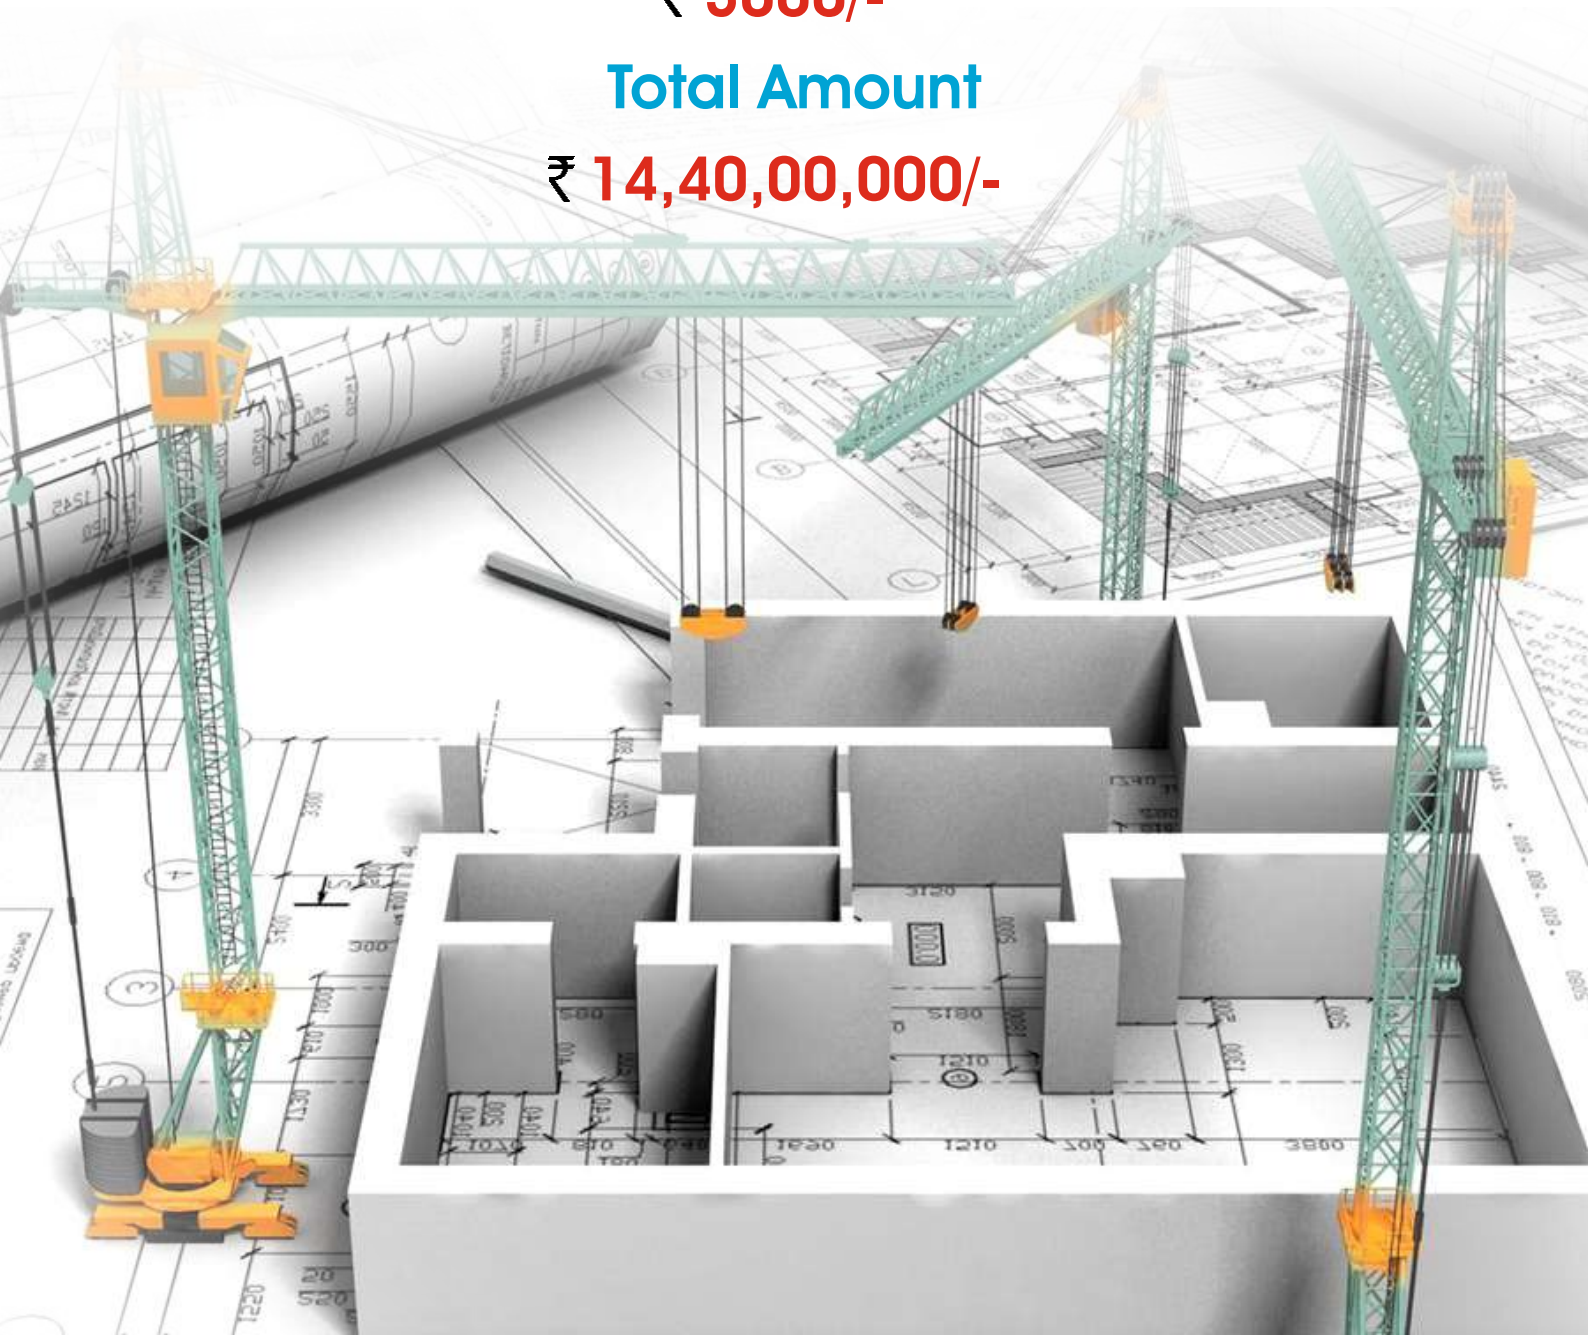

48,000 Sqr.ft.

Rate Per Sqr.ft.

₹ 3000/-

Total Amount

₹ 14,40,00,000/-

BUILDING CONSTRUCTION DETAILS

Academic Blocks: 60-70% of the total space. If you allocate 15 square feet per student and have 1000 students, you might need around 15,000 square feet for classrooms.

Playground and Sports Facilities: 15-20% of the total space. This can vary based on outdoor and indoor sports requirements. For instance, if you allocate 5,000 square feet for outdoor sports and 3,000 square feet for an indoor sports facility, that would total 8,000 square feet.

Library: 2-5% of the total space. For example, if the total built-up area is 50,000 square feet, you might allocate 1,000 to 2,500 square feet for the library.

Administrative Block: 10-15% of the total space. If the total built-up area is 50,000 square feet, you might allocate 5,000 to 7,500 square feet for administrative offices.

Multipurpose Hall/Auditorium: 5-10% of the total space. If the total built-up area is 50,000 square feet, you might allocate 2,500 to 5,000 square feet for a multipurpose hall.

Toilets and Sanitary Blocks: 5-10% of the total space. If the total built-up area is 50,000 square feet, you might allocate 2,500 to 5,000 square feet for toilets.

Canteen: 5-10% of the total space. If the total built-up area is 50,000 square feet, you might allocate 2,500 to 5,000 square feet for the canteen.

Outdoor Spaces: Varies. Allocate space for walkways, green spaces, and landscaping based on aesthetic and recreational needs.

Parking: Allocate space based on local regulations and the number of expected vehicles.
