The handshake of wine is symbolic in that it expresses the hard work and dedication that goes into each bottle. It has a way of bringing people together to form a community over a shared experience.

🍷 Our delicious community is something to be celebrated by handing a glass of wine to a friend for a toast. We welcome you to our wine community. Let's wine together, cook together, and learn together.

🍷 Read our article "The handshake of wine" in our bio link and shop fantastic small-production wines.

risingwinescollective This isn't a head-to-head battle per se, but an exploration between two well-known Pinot Noir regions. We were inspired by this exciting grape and pulled together a comparative tasting bundle from the Willamette Valley and Sonoma.

This bundle is terroir-driven with a diverse mix of:

- 🍷 small-production
- 🍷 family-owned
- 🍷 minimal intervention
- 🍷 vintages of 2012-2021
