## GENEO FACIAL

---

The Geneo facial device is the ultimate facial treatment platform for achieving a young, fresh and natural-looking skin. It is the only device on the market offering a unique combination of advance technologies. Tripolar RF, Oxygeneo and Ultrasound that work both on the outside and inside of the skin.

Geneo provides 3 effective facial treatments simultaneously. Natural ingredients in the Geneo OxyPod react with the Geneo Primer Gel for gentle, non-invasive exfoliation and trigger the oxygenation process within the skin. It combines gentle exfoliation, oxygenation, and a deep facial rejuvenation with the infusion of essential revitalizing nutrients. Geneo's innovative facial treatments are customizable for every age, every skin type, with immediate & long lasting results and can be combined with other facial treatments to customize your service.

The Geneo facial can be customized to fit your skincare needs with the power of the OxyPod. Geneo OxyPods are made with 100% natural ingredients like red algae, charcoal, & vitamin C, aiming to solve your skincare concerns. Each OxyPod is formulated with targeted ingredients, delivering natural sources of vitamins, minerals, and antioxidants to improve your skin's overall health and appearance.

### HOW IT WORKS

#### EXFOLIATION

Natural ingredients in the Geneo OxyPod react with the Geneo Primer Gel for gentle, non-invasive exfoliation and trigger the oxygenation process within the skin.

#### OXYGENATION

Geneo's oxygenation process triggers the body's natural, physiological process of producing oxygen to increase oxygen levels internally within skin. Oxygen is carried to the surface of the skin where the heightened levels of oxygen prep the skin to absorb nutrients throughout the rest of the facial treatment.

## NOURISHMENT

A blend of active ingredients is infused into your newly oxygenated and exfoliated skin during our ultrasound and neo-massage processes, allowing for maximum skin nourishment and hydration.

## BENEFITS FOR ALL SKIN TYPES
