

# Choose from 120+ metal urns!

One of our very first urns!

Funeral directors have been relying on Mark Thomas for handcrafted brass and aluminum urns for over 20 years. The three urns we started with in our 2003 catalog have grown to over 120 items, shown on the following fourteen pages.

These handcrafted urns are made of cast brass or aluminum with threaded lids. Each large urn comes with a Tree of Life certificate. Keepsakes are individually boxed. Stands shown with hearts are sold separately unless indicated.

RM791L and RM791T

## Personalization

Direct Engraving Adult & Keepsakes

# Mother of Pearl Designs

The intricate designs on the urns on this page are made of thin sheets of mother of pearl and are protected by an overcoat of clear plastic. All the work is done by hand.

Under normal conditions, these items are quite sturdy.

However, we advise against exposing these urns to very hot or sub-freezing temperatures.

Accordingly we do not recommend shipping these during periods when they will be exposed to extreme temperature in transit.
