Meeting Update January 24th, 2023

Thomas welcomed everyone to the meeting.

Martha stated she had no business needing to be completed.

Doug let us know that he paid the final bill for the Ag Center.

Thomas announced that we have officially been invited to Mills River Day on May 6th at 11am at North River Farms. Thomas is going to give us more information as he get is.

Thomas opened up discussions about Fall Harvest Days and let us know they had a meeting with the Ag Center about Fall Harvest Days and pricing. This year we will have Fall Harvest Days on Friday and Saturday only, October 13 and 14th. It was also brought up that camping spaces were going to be different this year. We also decided that we want to look into having a feature tractor this year at the show.

We also voted to change our webiste hosting service due to the current service not working correctly and our current contract with them ending in May. Martha will look into finding a new web hosting site.

Note: The new website is up and running! Visit www.applecountry.org to see our new site!

Tractor Trivia Questions

Q1: Prior to the 1950s, farm tillage equipment was usually attached to the tractor via a what?
