

SPEAKER TESTIMONIALS

Lori has been an absolute joy to work with at The Cancer Treatment Centers of America. Lori goes above and beyond to make sure that patients and caregivers have what they need to successfully heal and connect with others. Lori has been such an inspiration with beautiful ideas to bring to the table always. Lori has such a beautiful compelling way of sharing her story with others and it has enabled so many to feel safe to share and write with her. Whether it is walking the infusion center passing out writing prompts and journals to patients sitting in long appointments or hosting a class to share her story and connect with others, Lori has really created such a safe space for patients.

Mackenzie Taylor, Loyalty Specialist at Cancer Treatment Centers of America
