ABOUT HISTORIC EVENTS

Historic Events is located within the Hilliard Mills complex, a nationally listed historical site. The earliest mention of the site is from 1672, when John Allen was granted land near his sawmill by the General Court of the Colony of Connecticut. In 2006 Hilliard Mills LLC acquired the mill site including (Building Four), and is the first verified business in what is now Manchester, CT. This mill was operational up until the Great Depression.

The wool for George Washington's inaugural suit was carded here before being sent to another mill to be made into cloth then sent to Washington's tailor in New York.

The Historic Events Team recognizes the important historic and architectural significance of the site.

TESTIMONIALS

"We love having AirPure in your venue as it provides a sense of safety during the pandemic. It allows our brides and grooms to enjoy their night knowing the air they are breathing is as clean as possible. Having AirPure allows us to remain open during the pandemic which brings a sense of "normalcy" for our couples."

- Drew M. Angelo
Owner and Operations Manager
of Historic Events & Banquets

"I feel so safe having our wedding here next year. We really don't know how much longer this pandemic will last and it's so great to know that our closest friends and family will be as safe as possible during our celebration."

- Phoenix Hoang
Booked Bride
