La Salud Mental

ABOUT US

We are a passionate group of Latine Behavioral Health Providers dedicated to fostering community and delivering culturally and linguistically tailored services to Colorado's vibrant Latine and Spanish-speaking communities.

We united with a shared vision: to establish a space where fellow professionals could gather, connect, network, and glean insights from each other's experiences.

MEET THE ORGANIZERS

Conferencia
SAZONANDO
La Salud Mental

OUR VISION

We envision this conference as a continually expanding annual event, entirely in Spanish, for mental health providers in Colorado. Our goal is to offer high-quality, evidence-based, and culturally relevant training in Spanish by mental health professionals. Through this initiative, we aim to enhance knowledge, create a cohesive network of providers and referrals, and cultivate a united community of well-trained and informed mental health professionals.

OUR GOALS

01

To address the statewide mental health crisis amongst the Latine community. Our focus will be on delivering culturally responsive and linguistically relevant treatment to the Latine population.

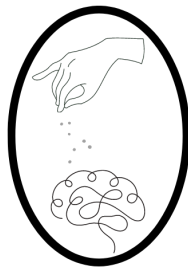

02

To reach 200 Spanish speaking professionals and students in Colorado as well as surrounding states.

03

This two-day conference will feature a renowned keynote speaker alongside carefully selected presenters, covering a diverse range of topics.
