CAPABILITY STATEMENT

COMPANY OVERVIEW

REAP Construction Group Inc. is a Kentucky & Indiana DBE Certified multi-faceted construction company that strives to provide safe and cost efficient construction services across the United States. Originated in 2012, RCG prides ourselves in maintaining a professional and unique performance that satisfies our customers and sets us apart from our competitors. Our approach to our work is clear and honest. We treat every project, every dollar as if it were our own because we're not just a service provider for our clients, we're a relationship builder.

CONSTRUCTION MANAGEMENT

RCG's collaborative and team-oriented construction management process offers a cost-effective approach for clients. With our Design/Build approach, working as a collaborator with a client's architect or serving as a general contractor, our teams provide experienced builders and craftsmen who are proven leaders in their fields.

ENVIRONMENTAL MANAGEMENT

RCG abides by federal and state demolition regulations. Our environmental specialists will handle all asbestos, lead-based paints, mold and any other hazardous material issues according to local health code regulations and building code requirements. We safeguard the building site and immediate area to ensure the safety of residents and other buildings in the area.

REAL ESTATE & DEVELOPMENTAL IMPROVEMENTS

RCG's tenant improvements and remodeling construction, providing property owners and managers with high-performance commercial improvements from start to finish. We understand that time is money and will use an aggressive schedule to add value to your property while minimizing interruption to your tenants.
