

geoConvergence, LLC d/b/a 39 DEGREES NORTH, LLC (39°N) was founded in 2004.

The company transforms data into powerful, visually-stunning systems that improve critical decision-making capabilities in any situation by combining the creative arts of cartography and design with the hard sciences of computing and engineering. Using a variety of cutting-edge technologies to tailor solutions based on unique requirements and constraints, our team develops smart maps that provide insights into data. We are a one-stop shop for all location-intelligence needs.

Core Competencies:

- Geographic Information Systems (GIS)
- Software Engineering
- Cloud Architecture & Services
- Defense Mapping & 3D Modeling
- Facilities Management
- Cybersecurity
- Location Intelligence
- Drone Services

Key Differentiators:

- Excellent Customer Service
- Small Business
- Custom GIS Application Development
- Uniquely Qualified Team of:
 - Designers
 - Developers
 - Engineers
 - Researchers
