

CAPABILITY STATEMENT

COMPANY OVERVIEW

BUC Construction Supply, Inc. is a supply company providing ready to work building modules, road construction materials such as precast concrete bridge and infrastructure materials, equipment enclosures, as well as pump and guard stations. Teresa Butler, President, has over 10 years of experience in the construction and marketing fields working with small and large companies to help them achieve their goals. The foundation of this company is to do "Whatever it takes" to do our best for our customers. The bulk of our products are from small businesses in the Midwest. With good follow through and effective communication, we will not make promises we can't deliver and will always strive to respond to our customers' needs. We strive to create customer loyalty and to build solid business relationships. We welcome and embrace the opportunity to earn our customers' business.
