

# Adamson Solutions L.L.C.

## Capability Statement

### Building Trust with Quality Work

Adamson Solutions, LLC was incorporated October 2012, with the objective of performing electrical system testing, electrical system inspections, safety planning, electrical contracting, electrical service, maintenance consulting, and sales. Our past projects include new construction, repairs, testing, engineering, and inspections. We can also plan, manage, and build multi-phase jobs. Occupied and fully operational job-sites are never a problem. We always insure a safe work environment. Adamson Solutions is owner operated by a master electrician with over 20 years of experience in the electrical and safety industry with 14 years of federal service.

### Core Competencies

We pride ourselves on expert knowledge in the following areas and more:

- Electrical Services
- Electrical Installations
- Electrical Controls
- Electrical Contracting
- Project Management
- Safety Inspection
- Safety Training
- Safety Planning,
- Security Systems
- Project Management
- Process Improvement
- Maintenance Consulting

### Differentiators

- Adamson Solutions believes in three things: honesty, professionalism, and good customer service.
- We offer an end-to-end client experience that includes seamless communication, budgeting, staffing, on-site organization, and solid, quality work that brings value to every project.
- At Adamson Solutions we pride ourselves on having the ability to develop and implement viable solutions to help your company achieve its safety and or maintenance goals.
- We can essentially locate any item your company may need but we specialize in safety and facility maintenance products.
- We have an in-depth understanding of the obstacles involved with Government purchasing. We'll help get the job done.
