

“WE LIGHT IT UP, SECURE IT, THEN CLEAN IT”

CAPABILITY STATEMENT

CORE COMPETENCIES

Barnes Concepts LLC was founded in 2014 based on the ideas of a family business started back in 1983, Omni Audio and Video. Though that family business closed, Barnes Concepts was started with the idea of providing quality and affordable electrical, low-voltage, home, and commercial audio/video installations. Serving as a US Air Force veteran business to many federal agencies, Security Systems, Drone Services and Janitorial were added, giving our customers the advantage of bundling services.

PAST PERFORMANCES

FAA | TSA | WPAFB | INDOT | GSA | WPAFB | AAFES
