

CORNERSTONE
ENERGY CORPORATION

CAPABILITY STATEMENT

Core Competencies

Our services focus on providing petroleum services for a variety of end users

- Wholesale Fuel and Lubricants
 - Fuel Analysis and Management
 - Emergency Support
 - Consulting
-

Differentiators:

We believe there is a reason some of the largest organizations in the world hire smaller companies like us to help them with their business. We are highly focused, efficient, and very-cost effective. Our philosophy is and always has been to put our customers first and provide service and advice that we believe is best for your business. We believe you will benefit substantially by working with us to improve upon a top-rated purchasing program.
