Capabilities Statement

Engineering Services Group, Inc. (ESG) is a multi-disciplined engineering DBE / MBE/SDB firm, providing services in construction management and consulting engineering services.

A certified DBE with the States of Illinois, Indiana and Wisconsin, ESG is also a certified MBE with the City of Chicago, Cook County, MWRD and CMS as well as a certified SDB with SBA.

ESG is pre-qualified with IDOT in several categories including: Surveying, Roads and Streets, Traffic Studies, Traffic Signals, Freeways, Construction Inspections and Landscape Architecture. ESG is also pre-qualified with the Capital Development Board (CDB), Cook County and Kane County DOT (KDOT).

Core Competencies

- ⇒ Multi-disciplined firm specializing in transportation, traffic, civil, and bridge engineering
- ⇒ Comprehensive Quality Management Program (QMP), Value Engineering (VE) and Quality Control (QA/QC) to minimize errors and omissions
- ⇒ Seasoned staff who are able to minimize project approval and completion time
- ⇒ Pragmatic approach to projects subsuming project scope, budget, life, and future maintenance

Past Projects

As Prime Consultant:
