

# **LC** Lyles Construction Inc.

Servicing all your construction and excavation needs

Lyles Construction, Inc. was founded in 1985 in Salem, Indiana as a small septic system installation company. It remained as such until June 2018 when the business was purchased by Wesley and Benjamin Bowers. Since the purchase, Lyles Construction has grown rapidly and has quickly dominated many of the area septic and wastewater markets. It has also expanded into other facets of construction

which were previously unknown to the company. The team at Lyles Construction has a varied background and a wide variety of construction skill sets. Thus, making us adaptable to nearly any type of construction project. We pride ourselves on providing excellent service and support to our clients. Lyles Construction is highly capable in both the residential and commercial market.
