

## History of Munster Steel Co., Inc.

**Munster Steel Co., Inc.** is an AISC Certified, DBE & WBE fabricator that is capable of fabricating a wide array of projects. Nothing is too simple or too complex. The company was founded in 1957 by Mr. O.C. Robbins, as the OCR Steel Company and later incorporated as **Munster Steel Co., Inc.** In 2014, the company moved to a new, state-of-the-art facility in Hammond, Indiana. The company began by fabricating structural steel, steel parts and misc. iron. It has always been able to fabricate steel for both buildings and bridges and continues to do so in today's market. **Munster Steel Co., Inc.** continues to grow and push the leading edge of the steel fabricating industry forward. Our customers include commercial, industrial, government and private enterprises.
