

**PREMIER**  
DISINFECTING SERVICES

# CAPABILITY STATEMENT

## CORE COMPETENCIES

Premier Disinfecting Services provides sanitation and disinfecting services using a ultra-low volume fogging system.

We use a green EPA regulated product called Decon 30 with no harsh chemicals determined by the EPA to kill SAR CoV-2 the cause of Covid 19. Our product is a **NO WIPE OR RINSE PRODUCT** and is **SAFE** to use on food contact surfaces as well as children's toys.

## PAST PERFORMANCES

### CHURCH BUILDING

Sanitized a church building that will open up to the public in the near future.

### GYM

Provided sanitation and disinfection services for a gym, spraying down gym mats, workout equipment, and the carpet.

### PRIVATE RESIDENCE

Sanitized a private residence spraying down counter tops, bathrooms, couches, kids toys, and flooring.

## DIFFERENTIATORS

What makes us different from our competitors is that we use a **GREEN PRODUCT** instead of using other products that have harsh chemicals.

Our solution has an essential oil *Thymol* that we use. It is advised by the American Public Transportation Association to spray to a light mist on surfaces which allows us to clean faster, cheaper, and better.
