Capability Statement

Quigg Engineering Inc. (QEI), a DBE/MBE engineering consulting firm, founded in 2006. Since opening our doors we have worked with clients to provide professional, quality engineering and consulting services mixed with practical experience and common sense. QEI licensed professionals have experience in transportation planning and design, traffic studies, site/civil engineering, bridges and structures, environmental studies, landscape architecture, urban planning, construction inspection, and surveying. Our goal is client satisfaction obtained by delivering a quality project that meets the schedule and budget. As an organization, we take a progressive approach to our profession: willing to evolve with the technological advances and recognizing the importance of inter-disciplinary expertise to provide a value-added advantage.

Core Services

As experienced engineers and surveyors, QEI focus on providing quality services to public and private entities. Some of our services include:

- Construction Inspection
- Surveying
- Site Development
- Bridges & Structures
- Route Planning and Design
- Environmental Studies & Permitting
- Traffic Engineering

Differentiators

- Our core strategy is working with our clients as partners, listening to their needs to identify their goals and objectives.
- We pride ourselves in providing distinguished service to our public and private sector clients, utilizing all our resources and considerable technical expertise of our professional staff for an exemplary project delivery.
- Each of our services has been designed to offer you the most comprehensive support and management possible for your project.
- At QEI we focus on quality and thoroughness. We make sure that no hiccups interrupt either the construction or the planning phases of a project, so that you can move forward promptly.
