#### RIGHT-OF-WAY ENGINEERING

- SR 57 Bridge Replacement
- US 27 Roadway Rehabilitation
- US 20 Roadway Reconstruction

#### SITE-CIVIL ENGINEER

- 63rd Place Drainage Improvements
- FedEx Distribution Building Expansion
- Forte Mixed-Use Building

**SJCA P.C.** (formerly known as Stephen J Christian & Associates), was established in 1998. SJCA specialize in Civil Engineering and Land Surveying. We are committed to providing creative, quality and cost effective solutions to our clients in a timely manner. SJCA have an established reputation for design and management of civil engineering projects which are of high quality and delivered on schedule. SJCA diverse experience includes numerous bridge replacement, bridge rehabilitation, small structure replacement, road design, and site/civil design projects for public and private entities. Our field services include land surveying, right-of-way engineering, construction observation, and bridge inspections for local public and private agencies. SJCA also perform miscellaneous structural designs and shop drawings for the reinforced concrete and structural steel construction industry.

### Differentiators

- For over 20 years, SJCA has excelled at providing premier leadership to our clients. Our owners dedicate countless hours focusing on the satisfaction of our clients and the development of our employees. As we continue to grow, the leadership team at SJCA has stayed consistent with our small business values, without compromising quality.
