

2023

Our Mission Statement

Our mission is to combat the fentanyl epidemic by providing easy access to accurate and reliable test strips. We were founded in California in 2022 by a group of friends and family who have been personally affected by the devastating impact of opioid overdoses. We came together with a shared goal of making a global impact and providing a resource that was not previously available.

As part of our commitment to give back to the community, we plan to actively engage in community outreach efforts. This includes hosting educational workshops and seminars to raise awareness about the dangers of opioid use and the importance of testing substances before consumption. We will also collaborate with local organizations and non-profits to distribute test strips and provide training on their proper use.

We are proud to say that all of our products and packaging are produced in the USA, this is important to us as we want to support the local economy and community. Our first priority will always be the community and cleaning up the years of damage and lasting effects made on families and children during the last decade due to the rising rates in drug use.

With our network of smoke shops, convenience stores, bodegas, CVS, Walmarts, Targets and numerous other chain brands, we will be able to penetrate the market and make a significant impact in the first year of production. We will be working around the clock to ensure that we are available 24 hours a day to meet the needs of our customers.

We also plan on strategic donations to other organizations within the substance abuse healthcare industry, as we know this is an issue we could not possibly combat on our own. We plan on many partnerships and cross-market promotion to really make the biggest impact we possibly can, because time is precious and the number of drug overdoses are steadily rising. We are committed to working closely with local and national organizations to address this crisis and save lives.
