

HSP Site Supplies Ltd

# Product Brochure

Protecting Your Workforce

# About us...

HSP Site Supplies Ltd are specialist suppliers to the asbestos removal sector. With over 100 years combined experience we've become a 'one stop shop' for the industry.

We also hold a large range of general safety items for the construction industry.

Based in 3 locations in the UK (West Kingsdown, Wigan & Cardiff) we can provide national coverage for general consumables.

HSP currently hold an ancillary licence so we are able to offer a full range of decontamination, servicing and testing options from our premises in Kent.

We have a large rental fleet offering decontamination units, negative pressure units, H Type vacuums and much more. All of our equipment is tested in house and is supplied fully certified and ready to use.

HSP Site Supplies Ltd work hand in hand with our sister company Hazardous Safety Products Ltd who specialize in the manufacture of equipment used in the asbestos removal industry.
