How do these appointments help your child?

Dental health examinations provide:

- Thorough examination of their current dental health to catch developing problems early
- Checking for signs of oral cancer for early detection
- X-rays, where clinically necessary.

Hygiene appointments provide:

- Professional removal of harmful hard plaque
- Advice and techniques – we work with your child to help them prevent tooth decay and gum disease.

We believe this results in the complete package to maintain your child’s oral health. We recommend joining to help reduce the risk of expensive restorative treatment in the future.

Please speak to any member of the team if you would like more information or for details on how to register your child.
