FOR IMMEDIATE RELEASE

Aerotex Aviation Offers Local Youths a Flying Adventure at AeroCamp

Odessa, Texas July 23, 2021 — Aerotex Aviation (ATA Flight Academy,) is pleased to announce AeroCamp 2022 for the Permian Basin. AeroCamp is a program designed to give young people a unique opportunity to explore the world of aviation and aerospace. As a member of the Flight School Association of North America, our flight school is proud to host AeroCamp for the kids in the Midland/ Odessa community and surrounding areas of West Texas.

Campers have the opportunity to learn first-hand about the dynamics of airplanes and flight along with the broad spectrum of careers in the aerospace industry. Campers get to fly an airplane if they so choose. There is a strong education component that all campers receive. There are field trips to explore various elements that together form the aerospace industry.

There are two camp options: AeroCamp Basic and AeroCamp Advanced. Basic is for children age 12-18 without any previous flying knowledge. This is the entry-level camp and allows for up to one hour of flight time. AeroCamp Advanced is generally reserved for teens who have participated in AeroCamp Basic or have already had some training.

To learn more about this program, contact **Aerotex Aviation Flight Academy** at 432-363-4816 or visit their website: www.aerotexaviation.com email- info@aerotexaviation.com
