### **Wyoming Democratic Party Condemns Illegal War**

*Cheyenne - Wyoming Democratic Party has released the following statement in response to President Donald Trump's military action in Venezuela:*

Today, we woke to the news that Donald Trump has launched an illegal, unconstitutional regime-change war in Venezuela — and he's not even pretending it's about anything other than enriching oil corporations and billionaires.

Instead of being outraged by this blatant violation of the Constitution he claims to hold so dear, or defending Congress's authority to declare war, Senator John Barrasso is cheering as the president tramples it.

Wyomingites don't want our government "running" a foreign country. We want to be able to go to the doctor, feed our families, buy a home, and build the American dream in the state we love. While we face the highest premium spikes in the nation and our neighbors are being forced to go uninsured, Trump is trying to distract from his failing economy by dragging the country into another costly, unpopular war.

"Maduro is not a good guy, but let's not lose sight of the bigger question: how does this help lower the cost of living for citizens in Wyoming? How does this solve the real issues facing Americans? This is simply a distraction," said Chair Lucas Fralick.

Once again, the American people are being stabbed in the back while politicians protect billionaires and abandon the Constitution. We deserve better, and we must demand it from those elected to serve us.
