“Power without love is reckless and abusive, and love without power is sentimental and anemic. Power at its best is love implementing the demands of justice, and justice at its best is power correcting everything that stands against love.”

“Abundance does not happen automatically. It is created when we have the sense to choose community, to come together to celebrate and share our common store. Whether the scarce resource is money or love or power or words, the true law of life is that we generate more of whatever seems scarce by trusting its supply and passing it around. Authentic abundance does not lie in secured stockpiles of food or cash or influence or affection but in belonging to a community where we can give those goods to others who need them—and receive them from others when we are in need.”

WHAT LEGACY WILL YOU RISK YOUR SIGNIFICANCE FOR?

I will not die an unlived life
I will not live in fear
of falling or catching fire.

I choose to inhabit my days,
to allow my living to open me,
to make me less afraid,
more accessible,
to loosen my heart
until it becomes a wing,
a torch, a promise.

I choose to risk my significance;
to live so that which came to me
as seed
goes to the next as blossom
and that which came to me as blossom,
goes on as fruit.
