Chapter II: India Revival Project

SABYASACHI FOR NILAYA I

Nilaya's first collaboration set the standard for all future pairings. It was with the one and only, Sabyasachi, arguably India's favourite and foremost designer.

Sabyasachi for Nilaya remains the bestselling collection even after 2 years of its launch, selling more than 5000 rolls since its inception.

His inimitable India Baroque designed exclusively for Nilaya still makes designers shiver with excitement.

His signature lavish vision and experimentations with traditional artistic forms have been transformed into wallcovering patterns and the collection is still the talk of the town.

Chapter II: India Revival Project

The story continues. Through heady floral themes, noble textiles and a tapestry of inspirations, acclaimed artist and designer, Sabyasachi, creates a magnificent bouquet of wallcoverings that celebrate the incomparable richness of the fabled land that is India.
