

Recertify My Roof®

OUR FLEXIBILITY WARRANTY

Warranty Coverage: Recertify My Roof guarantees that the treated asphalt shingles will remain flexible for five years from the date of treatment.

Additional Benefits: The warranty is valid even if the manufacturer's warranty is void and covers loss of flexibility proven by Haag's Brittleness Test.

Exclusions: The warranty does not cover leaks, faulty installation, or acts of God. These should be covered by your property owner's insurance policy.

Re-treatment: If the shingles lose flexibility, Recertify My Roof will retreat the affected areas on a prorated basis over the warranty period.
