**Additional requirements for Winter Campers November through April**

1. Winter campers in West Virginia will need to have a hot hose for their water hookup and a heat tape for our frost-free water valve. We provide barrels to cover the frost-free water valve and that keeps the wind off the hookup to help prevent freezing in cold weather.
2. Note: In the event of an electrical power outage for more than 1 hour in cold weather we will need someone to shut off all frost-free water valves to maintain the integrity of our water supply. Closing the frost-free water valve drains the water out of the line until electric power can be restored.
3. Payments for winter campers are handled through VENMO an APP you can set up on your phone. Our payment address is @Mitch-Pennington-1
4. Please pay the rent and deposits and electric with separate transactions.
5. Electric Payments-Upon arrival take a photo of your electric meter and text it to 304-703-5898 to verify your start reading, then each month text your meter reading when your monthly rent is due. Currently the rate is .129 cents /KW, and we will calculate your electric bill based on that rate.
6. Monthly Rate \$600.00/month- customers must commit to 2 months stay and cannot be reimbursed for a partial month. If you are going to be with us for less than 2 months the daily rates will apply with West Virginia sales tax and electric included.

**Thanks for allowing us to be your host at Just Plane Adventures Lodging and Campground**
