you have ever experienced on this planet.”

Regarding 5G:

“We know it to be VERY problematic & advise against it.
Earth Friends, PLEASE do your homework!
Study this not only for your own personal safety,
but for the rest of the life on your planet as well.
Your insect population is already hurting!
Your ecosystem is in deep trouble.”

Regarding 5G:

(Heavy sigh)

“This is not a sustainable plan for Earth's ecosystem and will hasten the demise of your insect population.

Do you REALLY want to speed up your world's environmental cascade failure?

I would highly suggest finding another way.”

“The average Earth Human pays 0 attention to the insects
REQUIRED
to create the food you consume
or that they are quickly becoming extinct.”

“Yrt is extremely concerned.

He says 40% of your insect population is faced with extinction.

This will result in an ecosystem collapse and starvation by MANY species.

He says you should be VERY worried and taking action NOW.”

“My Friends,

We are very sorry to inform you, but

‘The Worsening’ is speeding up.

If you believe this to be a minor thing...

**If you believe that in your own personal world
you do not need to worry about the loss of these insects...**

Think again.”

Just a suggestion.”**

The 5G appeal

Scientists and doctors call for a moratorium on the roll-out of 5G.

5G will substantially increase exposure to radiofrequency electromagnetic fields RF-EMF, that has been proven to be harmful for humans and the environment.

Points Signed by 370 Doctors

“5G leads to massive increase of mandatory exposure to wireless radiation.”

“Harmful effects of RF-EMF exposure are already proven.”

“‘Safety guidelines’ protect industry — not health.”

We did not ask to be harmed by 5G.

Neither did the estimated

1,000,000,000,000,000,000

1 quintillion innocent insects

who are on the front lines of its devastation

Plus everyone else

It is fair that the innocent be harmed?
