Chartered Engineer C-Eng

John Griffiths is the Managing Principal of ConTech-CA Engineering, servicing West Coast Clients.

John Griffiths is an electrical engineer and project leader with 30 years of experience. He has excellent communication skills and an extensive portfolio of successful projects.

He has held senior positions at some of the world's major engineering firms. John believes in providing his clients with a high level of customer service, quality and value driven solutions.

His specialties include healthcare and mission critical design, emergency power systems, distributed generation, microgrid, renewable energy, medium voltage power distribution, LEAN construction, IPD, integrated technology solutions, sustainable design and lighting/ daylighting design. John has also had experience leading projects as the prime consultant

John is also a Chartered Engineer CEng with the Chartered Institution of Building Services Engineers and a qualified electrician.

In addition to his electrical engineering experience, John is a recognized leader in the use of construction technology and the effective application of BIM/VDC project delivery methodologies. He is currently an advisor to some of the most progressive construction technology firms.
