

Welldon Kids Club

Coronavirus information

Dear Parents/Carers,

Please be assured that Welldon Kids Club are continuing to follow advice from the Local Authority, Public Health England and NHS guidance. We will take on board the advice we are given and update you accordingly.

Welldon Kids Club will continue to support the Governments advice that hand washing and hand hygiene should be strongly promoted and encouraged within our clubs. We would also like to help mitigate the risk of the virus spreading further by continuing to preform regular deep cleaning of our premises and equipment.

We have undertaken staff training sessions and held a child communication session including hand washing demonstrations and its importance.

Public Health England recommends that in addition to handwashing before eating, and after coughing and sneezing, everyone should also wash hands after use of toilets and travelling on public transport.

Hand sanitizer gel will be left at the front door for parents to use when collecting children from the clubs.

We advise any parents who have any concerns about coronavirus to read and follow the current advice published by the UK Government. This advice is updated regularly and includes the latest information about the virus, preventing the spread of infection, the current risk level, advice for and about returning travellers and what to do if you believe you have symptoms associated with the virus.

Government coronavirus action plan-

The government coronavirus action plan sets out what the UK has done to tackle coronavirus (COVID-19), and what we plan to do next.

The situation is constantly reviewed, and action informed by expert science and advice, guided by the Chief Medical Officer and the Chief Scientific Adviser.

The action plan can be found here:

<https://www.gov.uk/government/publications/coronavirus-action-plan>

Action plan recap-

The action plan sets out a four-phased approach in response to coronavirus –

Contain, Delay, Mitigate, and Research, based on the latest scientific evidence.
