- Mounts to standard weight brackets.
- Easy on/off in 5 minutes.
- 11' Cutting Bar
- 5.5' to 9.5' Adjustability
- Requires only two remotes.
- Adjustable Cutter Bar Angle

The "BEAR-BACK" Hedger is designed to have very limited exposures on the outside or "tree side" of the cutter bar. This is important when summer pruning to keep from catching on limbs and shaking off valuable fruit. With fork pockets a permanent part of the structure, the "BEAR-BACK" Hedger is on and off in minutes with a forklift and the removal of just 3 bolts.
