

We assist in the protection and preservation of life at sea and along the United Kingdom coastline. We work with HM Coastguard, the RNLI and other members of the search and rescue organisation as required.

At NCI Torbay we were involved in over 50 incidents in 2022.

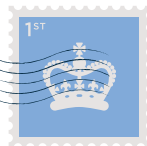

For local maritime information, current weather conditions and sea state, and radio checks, please call us on Marine VHF Channel 65.

Come and visit us, to see what we do and to enjoy one of the best views in Torbay. You might even like to join us as a volunteer watchkeeper!
