

**SWEDGELOCK**  
ALUMINUM FENCE AND RAILING

# ARCHITECTURAL PRIVACY SCREENS

**2026** EDITION

#### MAXIMUM PRIVACY

Reduce visibility and enhance security.

#### PREMIUM DESIGN

Modern aluminum built to elevate any space.

#### BUILT TO ENDURE

Engineered for strength, style, and all-weather performance.

#### LOW MAINTENANCE

Enjoy lasting beauty without the upkeep.

## *From Concept to Completion*

Engineered from detailed shop drawings to match the project's architectural vision, the structure features precision fabrication, custom geometric infill, and a resilient powder-coated surface.

The result is a custom design that delivers durability, security, and elevated architectural style

**ARCHITECTURAL PATTERNS**  
 Sophisticated designs add style and visual interest.

**PREMIUM ALUMINUM**  
 Durable, lightweight, and engineered for strength.

**PRECISION ENGINEERING**  
 Thoughtful details ensure lasting performance.

**VERSATILE APPLICATIONS**  
 Ideal for balconies, facades, perimeters, and more.

Custom powder-coated aluminum privacy screens engineered from project-specific shop drawings, featuring precision-cut geometric infill, durable construction, and meticulous attention to detail.

Each component is fabricated to exact dimensions for a clean fit, consistent alignment, and a cohesive finished appearance that complements surrounding materials and architectural intent.

*Where Precision Meets Excellence*

# ARCHITECTURAL PRIVACY SCREENS

*A Drawn Design turned into A Custom Creation*

Every architectural privacy screen starts with a drawn concept and is transformed into a precision-fabricated aluminum system. Choose from horizontal, vertical, open, closed, perforated, or fully custom designs, with customizable spacing, dimensions, mounting options, colors, and finishes.

From subtle screening to bold architectural statements, the possibilities are nearly endless.

**HORIZONTAL  
WIDE SPACING**

Wide horizontal slats create a modern, open profile with filtered privacy.

**HORIZONTAL  
NARROW SPACING**

Closely spaced horizontal slats provide a sleek appearance with increased privacy.

**VERTICAL  
OPEN**

Open vertical profiles deliver clean lines, airflow, and timeless architectural aesthetic.

**VERTICAL  
CLOSED**

Tightly spaced vertical pickets provide maximum privacy with a refined contemporary appeal.

**PERFORATED  
DESIGN**

Precision-perforated screen adds visual texture while maintaining privacy, light, and airflow.
